Sector one delay was due to catering not being sorted well ahead of departure time. The aircraft still had charter catering on and was full of stores. Delay compounded by the gpu plug falling out during a start sequence. Subsequent ABZ departures better. It is of note that today's schedule was rather generous in terms of ABZ turnarounds and we arrived early. Compare this with standard turnaround times ex KOI where the check in and ops system computers were shafted and we still got turned around there far more efficiently.

We then requested for a WCHC as the pax was unable to walk down the steps, I reassured the pax while we waited for the ambu-lift, I also asked if he was ok, if he would like anything to drink or eat to help him feel better, pax said he was fine and thanked me for asking, I kept an eye on pax while I carried out my duties, pax was assisted to the wheelchair by ground staff and pax was taken to terminal. 31MAR14 10:41 message sent.Origin: ianhammond@loganair.co.ukReceivers: evroperations@loganair.co.ukTitle: Voyage reporting for duty BE6831,BE6832,BE6833 from HAMMOND,Ian (032)Message text: HAMMOND,Ian (032)BE6831, 31MAR14 06:50, GLGNFBE6832, 31MAR14 08:05, GLGNFBE6833, 31MAR14 09:25, GLGNFSector 2: Only a 5 min delay due lack of ground equipment/staff. This led to joining the back of a large departure queue that would have otherwise been avoided.
